Architectural  
design

**ABLOY**

## IDEAS AND INNOVATIONS

# – finnish design

Design means the appearance, feel, ease of use and, above all, functionality of a product. It involves an understanding of needs, innovation and the very best traditions. We want to make everyday life smoother and more secure for you.

The ABLOY DOOR HANDLES bring a whole host of styles to your living environment: modern, traditional, youthful – whatever you desire. Small details add the finishing touches to an overall harmonious look. Abloy's range includes handle models designed by its own in-house design department as well as handles by top Finnish designers, such as Alvar Aalto, Harri Koskinen and Timo Sarpaneva.

## Surface finishes

When you're selecting a surface finish and material for a handle, we recommend taking into account not only the overall appearance of the space, but also the operating conditions of the handle and the amount of wear it has to withstand.

## Our range includes

- Brass handles which we recommend for use in exterior doors in residential buildings, in public spaces and high traffic doors.
- Stainless steel handles which are suitable for use in both exterior and interior doors in residential buildings, for example.
- Aluminium handles for interior doors in public spaces.
- Zinc handles which are suitable for light interior doors.

To make it easier to find handles in the range, we have created a quick selection table which you can use to check the features available with your favourite handle.

## ANTIMICROBIAL ABLOY® ACTIVE

ACTIVE-coating on all painted door fittings!

ABLOY ACTIVE kills 99 % of the most common bacteria and is also effective in combating MRSA.

The products in this brochure are available in all RAL colour chart shades to special order.

# ABLOY® EXTERIOR AND INTERIOR DOOR HANDLES

Our range of exterior and interior door handles includes products suited to both classic and modern design. Strong return springs facilitate the opening and closing of the door and help to keep the handle in the correct position.

DESIGN HARRI KOSKINEN

### ABLOY® DOMUS 12

The inside handle is an ABLOY POLAR handle or alternatively any other handle you'd like.

DESIGN JANNE LOISKE

### ABLOY® DUETTO 8

This traditional and stylish DUETTO handle is a combination of classic and distinctive design. The handle is equipped with color panel which can withstand sub-zero temperatures and UV radiation. Panel color options: brown, red, green, blue, light and dark grey.

### ABLOY® FORUM 4

Minimalist, elegant handle is a high-quality and durable solution for new and renovated spaces.

### ABLOY® FORUM EXIT 4

ABLOY FORUM 4 and ABLOY FORUM EXIT 4 are also available in stainless steel.

### ABLOY® PRIME 15

Durable brass-based handle available with multiple surface treatments. Handle also available in low model DH315.

**ABLOY® ONCUT 5**

This extremely discreet and elegant handle is a pleasure to look at and use. The handle is suitable for use in public and residential buildings.

INOXI -SERIES?**

# ABLOY® INTERIOR DOOR HANDLES

Interior door handles are smaller and more delicate handles than their exterior counterparts, and are designed specifically for interior use. These door handles are made of zinc, which is especially suitable for indoor use. Our wide range of interior door handles also includes handles made from other materials, making for a versatile range of design solutions.

# ABLOY® PANIC BARS

## CONVENIENT EXIT SOLUTION

Panic bar solution keeps the door closed and locked from the outside but allow for hands-free, convenient exit from the inside. ABLOY PANIC BARS are tested clearly above requirements of the EN 1125 standard. Panic bars can be used with either single or double door solutions and with mechanical or electromechanical lock cases.

## EXIT SOLUTION FOR SCANDINAVIAN RANGE

PBE001 for wooden, metal or narrow stile doors. The outside lever handle must be selected separately.

PBE002 for wooden and metal doors. Includes an external anti-burglar plate.

PBE003 for narrow stile doors. Includes an external anti-burglar plate.

## EXIT SOLUTION FOR DIN RANGE

PBE011 for narrow stile doors

PBE011 for wooden and metal doors

The panic bar rail surface finish is stainless steel and the rail's standard length is 1150 mm.  
Panic bars are available in ABLOY COLORS with ACTIVE-coating!
